DIDN'T KNOW THE CAPITOL .- W learn of a rather good one upon one of the Republican Senators from an Eastern county, not remote from Bladen. While en route to Raleigh in November upon the assembling of the Legislature, he espied quite a crowd at Magnolia, a depot on the line of the Wilmington & Weldon Railroad. The venerable Senator gathered up his carpet-bag and wened his way into the crowd, with a faint enquiry "is this the place the Legislature meets?" He learned his error just in time to get on the rear platform of the train as it was

DEATH OF MAYOR HOLDEN.— Joseph W. Holden, Esq., Mayor of the city of Raleigh, died at the resi-dence of his father, W. W. Holden, at 5 o'clock yesterday morning, of dropsy. He had been confined to his room for over two weeks, and several days ago we were informed that his physicians considered his case hope-less His demise was therefore not really unexpected. Mayor Holden, though comparatively a young man, has filled several important offices in the gift of the people, being elected to the House of Representatives from this county in April, 1868, and was chosen the Speaker of that body. In May, 1873, he was elected Mayor of this city, which office he held to the death. the day of his death. The Board of City Commissioners met vesterday a 12 o'clock, and passed appropriate resolutions in regard to his death, In accordance with the resolutions

the town bell was tolled from 1 p. m. to 2 o'clock. The exterior of the Mayor's Court room was appropriately dressed in mourning, and the ante doors closed with long streamers of crape ap-

pended to the knobs. His funeral will take place from he residence of ex-Gov. Holden at 31 o'clock to-day. The Kuights of Pythias and Raleigh Light Infantry, both of which organizations he was a member, and the Fire Companies of the city will turn out in a body in

For the Daily News. The Question of Listing the Poll

Mr. Editor: There are 250,000 men in North Carolina, whose names appear upon the registration books; of this number 140,000 list their polls, according to the last report of the State Auditor. Therefore, there are 110,000 men who do not appear upon the tax books. Of this latter num ber, 30,000 may be deducted on account of poverty, infirmity and over age, leaving \$0,000 men who are liable to a poll tax who do not pay one cent of tax. The poll tax for both county and State is two dollars, making a loss of \$160,000 to the State and counties every year, which loss the property of the State is taxed to make

These remarks are called forth by the fact that I see that a bill has passed the lower branch of the Leg-islature divesting the Superior Court of jurisdiction in what is known as the poll tax cases. Is it the purpose of the Legislature to say by their action that every man who has nothing to list but his poll that the property of the State must and shall pay the taxes to run the State, county and municipal governments, an that all who do not see fit to pay poll

tax shall not be made to do so? Again: Mr. Walker's bill provides that the fees of the Clerks and Sheriffs shall be paid, but the Solicitors, who have endeavored to execute a public law, who have gone to the expense and been at the trouble to have indictments found, are not allowed their fees. Is this right or just? If Solicitors are expected to go forward and execute the law, they should receive their fees, if any other officer is allowed fees. Feed all with

A suggestion: If the several Justices of the Peace are to be given jurisdiction of the poll tax cases, in that event the Solicitors should be required to make complaint before the Justices of all who fail to list, and prosecute the same; and for such services the Solicitors should be allowed such fees as are prescribed

by law. The people of the State are inter ested in this matter to the amount of \$160,000 per annum—it deserves the special attention of their representatives.

GRANT DID IT HIMSELF .- It is now known that the President made the order with his own hand, and sent it to the Treasury and other depart-ments, directing that the public advertising should be withdrawn from the Republican newspapers which had condemned his conduct in Louisiana : and that he himself named others to be substituted in their stead which had approved of military intervention.

As Gen. Grant considers the Presidency a personal possession, to be administered for his own interest and at his own caprice, this act was consistent with that theory. It also furnishes another illustration of his peculiar devotion to civil service reform, which figured so largely in the annual message, and has been exem-plified with so many striking proofs of his fidelity.-New York Sun.

The Morristown Gazette, while

unable to predict the result of the controversy now being conducted in the Knoxville, Chattanooga and Cincinnati papers, relative to the Great Southern railroad, is confident that within two years the people of that portion of the East Tennessee will have railway communication with Charleston, South Carolina; Wil-mington, North Carolina, and Norfolk, Virginia. The northwestern cities will seek the shortest route to the seaboard, as well as the southwestern sea-port towns. The most direct line will be by way of Cumberland Gap. The Cincinnati, Cumber sand Gap and Charleston railroad known in Morristown as "Buncombe," will, ere long, be one of the most important railroad links in the great network of internal improvements.—Memphis Appeal.

Funny that all the men who staved in Washington know that the statements made regarding Louisiana by the men who went there are "false."

THE seizure of a Roman Catholic seminary by the Prussian authorities and the severe punishment of the bishop and clergy of the diocese will add still more to the hatred felt for Bismarck. He is making martyrs of his opponents, and martyrdom never fails to strengthen the cause in which it is endured.

PENNSYLVANIA and the whole country have cause for congratulation in the election of Mr. Wallace to the U. S. Senate on Wednesday. But a few more years are necessary to place the U. S. Senate in the control of men who can legislate for the good of a whole people and who have higher ambition than mere party advancement at the sacrifice of every honest principle of government.

THE New York Legislature is endeavoring to revive the laws providing for civil remedies for malversation by public officers. The effect of its passage would be to enable the State to recover from dishonest officials the money stolen by them from its treasury. Would not a similar law, put into practical working in many States of the South, be of much positive benefit to our impoverished section?

TWENTY-NINE ballots were taken in the Rhode Island Legislature last June for Senator without result, and to-day there is no apparent change in the situation. General Burnside and Mr. Dixon are still the leading candidates, and we may again expect the irresistible force of the one to meet the immovable body of the other. It is not unlikely that a compromise must be made, unless Rhode Island is willing to leave Senator Sprague without any present successor.

Was in Europe is feared by the London Times, which says, "the momentary dreams of peace have fed away." Germany is armed, and the surrounding nations are forced to arm in their own defence. Yet a few months ago the Emperor William announced that his policy was one of peace, but even then, as now, the pledge was understood as a menace. "There is order in Warsaw" was once the boast of these monarchs who partitioned Poland; but, as Thomas Meagher defined it, it was the order of the charnel house and the grave, Germany seems disposed to enforce peace by crushing her rivals and making resistance impossible.

SENATOR MORTON, says the Baltimore Gazette, believes the Republican party never had a more prosperous career before it. So he has said publicly and privately. He is a leader of his party, and entitled to speak by authority. We dismiss the idea that he is simply false to his real sentiments. As he speaks he and his followers act. If they thought diffrently, they would act differently. They are prudent, and have trimmed their sails before to weather many a storm. If anything, indeed, had been remarkable in the past hstory of the Republican party, it has been the shrewdness with which it has taken the popular current; shifted with it, led it, catered to it, changed with it, humored, pampered and cheated it. No, if Senator Morton thought the favor of the people was veering, he would veer too. We are driven to the conclusion that he actually believes what he says. Such a state of mental stagnation seems incredible to a quiet looker-on of the Democratic side. Is Morton blind or are we? Does he know the people better than we do? Some basis for such confidence he must have, even if the besis is treacherous and misleading. What is it? Is it another instance of the gods making mad those about to perish? Or are the American voters about to be ringnosed by these demagognes?

THE Republican minority in the New York Legislature paid the last empliment they could this week to x-Senator Morgan. He was named as a candidate for defeat against Mr. Kernan for the U.S. Senate. The election of Mr. Kernan will doubtless give much satisfaction broughout New York.

THE dispatches announce the elecion of Mr. Dawes to the U. S. Senate from Massachusetts. He is at present a Republican member of the House, he not having been reelected, however, to the next House, The New York Sun of Monday, referring to his then probable election, said:

"This is an effert of a similar nature that have been made to elect General Butler Governor. Indeed, of the two, Butler is the better, more honest, and more creditable man. If he he had taken the Credit Mobilier stock, he would neither have lied or perjured himself as Mr. Dawes did, in the attempt to deny and con-

"It would be a signal of moral degradation if such a man should now be chosen by the Legislature of Mas-sachusetts to fill the place of Charles Sumner. But perhaps such a misfortune is in reserve for that once proud Common wealth."

THE general Democratic Conference held in this city on Wednesday was largely attended, and was of a most harmonious character. Prominent gentlemen entertained different views on the Convention question, and the expediency and necessity of a Convention being called at once by the Legislature was discussed with much earnestness. It was not intended that any action should be taken by the conference, and of course none was had. It was only held for the purpose of allowing gentlemen from different portions of the State to discuss the question before the Democratic members of the Legislature, in order that the latter might become better informed as to the wishes of the people in the premises. We of course cannot tell what effect the discussion may have had upon the members, but it is understood that cancus will be held at an early lay in order to decide the question It is pretty generally understood, we believe, that a two-thirds vote will granted in caucus by the friends of the measure in order to make the call more thorough and powerful should it be decided to have a

England, a few days since, Colone Keating and his wife were sued by a former servant to recover £50 for assaulting him by presenting a loaded revolver at him. It appeared that morning last summer plaintiff was going to the Colonel's room to attend him as usual, Mrs. Keating stopped him with a six-chambered revolver loaded and cocked in her hand. She said, "stir another step and I will shoot you." The plaintiff was so frightened that he ran out of the house, and went di-rect to Aldershot and obtained from the magistrates a warrant for the apprehension of Mrs. Keating. At the conclusion of the plaintiff's case the Judge suggested an arrangement, but Mrs. Keating, against the advice of her solicitor, persists in entering the witness box. She said she had been much annoyed at the insolent conduct of the plaintiff, and she was determined he should leave her house he presented the revolver at him, and said, "If there is any repetition of insolence I will fire this." The Judge, without calling upon the plaintiff's solicitor, said it was a most unfortunate thing for Col. Keating to possess a wife who appeared to be ignorant alike of common law and common sense. To present a loaded revolve at a man in the manner she had done was simply monstrous. He found for the plaintiff the full amount claimed.

At the Aldershot county Court in

Convention.

Vice-President Wilson acknowledges that the Republican party is in a very bad way, but hopes and believes that its days are not yet ended. In his letter to the editor of the Springfield Republican, printed on our first page to-day, he reads his party a severe lecture for its mistakes, but takes occasion to proffer the olive branch to the conscientious and patriotic men who helped to give it the proud position it once occupied, but who are now found in the opposition. The overture is made in kindness, and will doubtless be re-ceived in kindness, but it would be much more likely to effect the desired reunion were it not accompained by the admission that the party still has the deficiencies which caused and have kept up the separation. The Vice-President makes a stirring protest against the management of the party by office-holders; but we fear this too will be ineffective; the men who ought to take the hint are

protest-hardened .- N. Y. Tribune. Mr. Sampson, until recently financial editor of The London Times, has been convicted of a libel on Mr. Ruery, and sentenced to pay substan tial damages. Leaving out of account the character of the scheme which Mr. Sampson denounced, there is another question of greater importance involved. The evidence on the trial, so far as we have it by mail from London, is strongly presump-tive of an abuse of his position to promote his private interests. Subsequent testimony may tend to modify this impression, but the best modify this impression, but the best that can be said in his favor is that nis course, if it showed no culpability in this respect, was inconsiderate to a degree which rendered excusable any want of confidence in his good

Large and attractive signboards are a great feature of Chinese shops, and the words upon them are a strange mixture of the flowery literature of the land and the advertising instinct of a commercial people. WEST VIRGINIA SENATORSHIP.-A letter from Charleston, West Virgi nia, in referring to the senatorial question, says as between J. N. Camden and Henry S. Walker, late pub-lic printer, the latter seems to be the strongest, and much danger is apprehended by his opponents, being, as he is, an indefatigable worker and ingenious manipulator. Without a diversion in favor of a new man as against the two named, his election is considered assured by many. Mr. Walker is a native of Winchester, Va., and is regarded as a man of considerable promise.

We suppose that his in ellect must have been temporarily impaired by the excitement of the occasion. It was at Dubuque. The ceremony had been performed. The congratulations had been tendered. The happy 2 made 1 were about to step upon the bridal bolt—the marital meandering. Then it was that He (poor fellow! jumped on the rear end of a train going out at one end of the depot, while She sat sweetly waiting for the lord in a train going out at the other end! He had only stepped out to see about the baggage. One or the other kind-hearted conductors might have put back—but which was it to be? Never did time and space make two lovers more unhappy

It is in order now for the organs to denounce Messrs. Phelps and Foster "weak-minded." "doughfaced," and "namby-pamby" persons, who were misled by the "howls of the socalled independent journals." course they have only told the truth, but their "doughfacedness" consisted in preferring the truth to the welfare of the glorious cause of Grantism.-

WHANN'S RAW BONE SUPER-PHOSPHATE

is no new or untried manure. It has been before the public for upwards of ten years during which time it has been steadily growing in reputation, until it is now universally recognized as one of the most uniformly reliable concentrated fertilizers in the market. It is manufactured from the best and purest raw materials, every one of which is subjected to chemical analysis before being used. The purity of the fertilizer is thus assured. In addition to this, every step of its manufacture is conducted under the strictest chemical supervision, so that farmers are thus guarded at every point from any danger of using an inferior article. His declarations d the papers communicated to the nate warrant no such construction. the contrary, this message though bdued in expression from the orial form, is one of the gravest signs Executive exorbitance, for its erances are not only deliberate, they were recast after repeated ferences with the Cabinet and publican leaders in both Houses of gress, so as to curb his first outst of passion and unqualified apval of Sheridan's brutal bulletins There is not a syllable in the whole ssage which condemns Sheridan, even rebukes his vulgar violence. far from it, the President expressly ys "he never proposed to do an il-gal act," and indirectly applauds be proposition to trample the Conis proposition to tramme the constitution under foot and to strangle laws, by declaring "he suggested immary modes of procedure against icm, which, though they cannot be lopted, would, if legal, soon put an ind to the troubles and disorders in the straight straight such same than the straight such same at State." In other words, the esident only regrets that there is gal impediment to a summary exegainst a government of thieves and allot stuffers, which he has imposed pon them by brute force and trans rent fraud. He believes in the licy of no trial and short shrift for ponents of his corrupt Administra-

The full and hearty approval of all neridan's acts and declarations on 4th and 5th of January accompanied the message, as if to reiterate that sanction which the Secretary of War had expressed by the President's direction. Remark Belknap's of January: "The President and of us have full confidence in and roughly approve your course." at satisfied with that strong approby ...heridan, the Secretary of sent him a second telegram on same day to reinforce the first, in ich he said: "Be assured that the sdom, and rest in the belief that all of yours have been and will be This I intended to say in brief telegram."

The President had all Sheridan's espatches before him when these wers were sent. He knew exctly what the facts were, and he proved everything in lump, and rave him in advance a certificate of proval for whatever he might se to do. In his message he does not take back, qualify, or palliate one word of this commendation. Quite the reverse; for these telefams were flaunted in the face of the country, as if to show the President's contempt for the excitement which they had caused, and his en-

But this is not all. If the President, had intended in any way to satisfy the country, and restore the peace, which he alone has disturbed, he ould at once have withdrawn Sheridan, and thus have given some token He has not raised a hand in that di-

rection, or manifested the least disposition to admit error. Sheridan stands precisely where he did on the 5th of January, backed by the Presdent and the whole power of the administration, more revengeful in spirit because of the popular censure of his conduct, and thirsting for a pretext to let slip the dogs of war.

There can be no peace or prosperity while this military satrap is kept in Louisiana as a living menace and outrage. Take away the troops give

outrage. Take away the troops, give back the guarantees of the Consti-tution, let the people, black and white, manage their own affairs, just as we do in New York, and tranquility will at once be certain. That is the remedy for this disease, and not a dime should be voted for the army to restrain the excesses of the President if they have the courage and the purpose to act unitedly on the Army bill with the spirit they have shown for far less reason on the Civil Rights bill bill.

THE WEEKLY SUN will continue to be a thorough newspaper. All the news of the day will be found in it, condensed when unimportant, at full length when of moment, and always, we trust, treated in clear, interesting and instructive menner. It is our aim to make the WEEKLY SUN the best family newspaper in the world. It will be tall of entertaining and appropriate reading of every sort, but will print nothing to offend the most scrupulous and delicate taste. It will always contain the most interesting stories and romances of the day, carefully selected and legibly printed.

most interesting stories and romances of the day, carefully selected and legibly printed.

The Agricultural Department is a promin-nt feature in the WEEKLY SUN, and its articles will always be found fresh and useful to the farmer.

The number of men independent in politic is increasing, and the WEEKLY SUN is their paper especially. It belongs to no party, and obeys no dictation, contending for principle, and for the election of the best men. It exposes the corruption that disgraces the country and threatens the overthrow of republican institutions. It has no fear of knaves, and seeks no favors from their supporters.

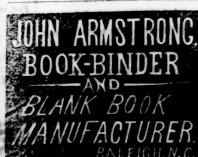

The markets of every kind and the fastions are regularly reported in its columns. The price of the WEKLY SUN is one dollar a year for a sheet of eight pages, and fifty-six columns. As this barely pays the expenses of paper and printing, we are not a size to make any discount or allow any premium to friends who may make special efforts to extend its circulation. Under the new law, which requires payment of postage in advance, one dollar a year, with twenty cents the cost of prepaid postage added, is the rate of subscription. It is not necessary to get up a club in order to have the WEEKLY SUN at this rate. Any one who sends one doll or and twenty cents will get the paper, postpaid, for a year.

INFORMATION

Farmers of North Carolina.

GENTLEMEN—Two years ago, at the request of a number of the leading planters of your State, I endeavored to form what was then known as the North Carolina Fertilizer Company. The main object (on your part) in engaging in the enterprise was the reduction of the then prevailing high prices for fertilizers by forming a Farmers' Manufacturing Company, and said Company being owned and controlled by you, thereby be enabled to obtain a certain amount of the production at cost price. After spending some three months in thoroughly canvassing those sections of the State in which fertilizers were largely used, a subscription to the stock was obtained, of which we have no cause to be ashamed. Unfortunately, when we met for organization, the false reports, &c., of those who were interested in preventing its formation prevailed, and the enterprise was abandoned. I was afterwards frequently solicited to start once more, and many offers and pledges made, but I have refused, being fully convinced of influre. Although I have refused to attempt the re-formation of said company, yet I have single-handed carried on the fight we jointly began for lew prices, being fully convinced that the true policy of the dealer is large sales and reasonable profits.

In introducing Guanahani Guano last year, consistancy to this policy was shown, although the chemical endorsement from the highest authority in the land entitled the Company to charge a much higher price than the \$40 per ton at which it was placed on the market.

It was expected that this fight for low prices would raise great opposition from parties

the market.

It was expected that this fight for low prices would raise great opposition from parties interested in preventing the same, but hardly that it would be carried on with such a bitter spirit as witnessed during the post year. I desire no better vindication than the certificates contained in the circular of that Company. showing as they do more general satisfaction to the planting public than any fertilizer that has ever come under my observation.

observation.

That a high standard of knowledge in regard to agricultural chemistry does not exist among the farming public, there is no doubt; in fact, all admit it; but while regretting the same, hope for better days to come.

The above being true, we must expect to find opposition to new ideas, until the time when practical demonstration of the plantation shall drive out the existing prejudice for cld things.

Such a prejudice existed last year in regard to Guanahani Guano. Many did not even grant it a small trial or test, from the fact that it did not emit the odor by which they have been in the habit of judging of the good qualities of a fertilizer. But few are aware that forms of nitrogen er ammonia, other than a volatile condition, exist, and that two, or three of said other forms are, for many reasons, more valuable for agricultural purposes than even the saits of ammonia in Peruvian Guano.

Again: but few are aware that phosphoric acid or phesphate of lime exist in a natural guano in different forms from those contained in manufactured fertilizers. The far ming public have been taught te look for soluble, precipitated and insoluble phosphoric acid, and have been left entirely in the dark as regards neutral phosphoric acid, pronounced by all chemists, and estimated in all tables of agricultural value of such angredien s, to be worth the same as the soluble phosphoric of Guanahani Guanaticle.

article.
Such prejudices as these operated more against the introduction of Guanahani Guano than all others.
In order to eradicate these false ideas or prejudices, I appeal to that almost infall-ble verdict that comes from the plantation test, and refer you to the certificates contained in the circular named.

These certificates are from different sections of the States of North Carolina, Virginia and Maryland, where Guanahani was used during the past year.

In North Carolina they will be sound, on examination, to extend from Gatesville in the East to Charlotte is the West and from the first agriculturists of the different sections The judgment in these cases has not been made on account of a fine growth of weed or stalk, but from final results—as shown by the an ount of grain or seed cotton—and I know of no better mode of judging than "By their fi uits ye shall know them,"

With respect, yours truly, "

propriation bill. MIDNIGHT DISPATCHES.

FROM WASHINGTON.

Congressional.

WASHINGTON, Jan. 21.—SENATE. Hamlin, of Maine, from the Committee on Civil Service and Retrenchment, reported adversely on the bill to reduce the salary of the ident of the United States, with the request that it be placed on the ar with the adverse report. So

The Senate then discussed the proposed amendment to the Constitution submitted by the Committee on Privileges and Elections in regard to the election of President and Vice-President. Morton, Conkling Edmunds and Thurman participated in the debate, and the latter made a motion to postpone the further con-sideration of the subject till the first of February. The vote on the ques-tion will be taken to-morrow.

House.—The Indian appropria-tion bill was rejected on account of the provision to pay about three mil-lion dollars to the Choctaw nation under a treaty of 1865, and was again referred to the Committee on Ways and Means.

Chas. A. Wetmore, the newspaper correspondent who was yesterday committed for contempt, sent a letter of apology to the Speaker, which was accepted and he was discharged. The conference report on the Little tariff bill was made, discussed and

agreed to.

The House adopted the Conference report on the tariff bill, which places the duty on all still wines at forty

cents per gallon.
On dit.—The Special Committee appointed under a resolution of the Republican caucus have agreed to report to the next meeting in favor of recognizing the Kellogg government, and the Judiciary Committee of the row what action should be taken regarding Louisiana, and the prospect is the action of the Special Committee will be followed.

NEW YORK, Jan. 21 .- The Post of to-day says the failure of Heath, Anderson & Co., dry goods merchants, has been announced.

We find the following handsome compliment to General Pryor in the New York correspondence of the Mobile Register: "General Roger A. Pryor made his mark very effective-McCue's order. His presentation of the case was masterly in every way, and is highly praised by the profession. General Pryor is one of the few Southern men who, coming to New York since the war, have established themselves on a solid foundation. He has built up a lucrative practice, and taken rank among the most competent men in the legal brotherhood here."

The Committee on Elections of the House of Representatives have pon-dered the matter long and well, and arrived at the conclusion that Bishop Cannon, the delegate from Utah, is a polygamist and has no right to a seat in Congress. He is therefore to be expelled. The decision will not affect the Bishop greatly, for when the sentence shall have been pronounced his term will be near its patient and

A surgeon who lodges over a butcher shop in Paris feels much ag-grieved at the announcement on the shop window that "killing takes place daily in this establishment." The Doctor considers that his pro-fessional skill is impugned by the notice, and resents it sufficiently to go to law about it.

The State press is unusually united in its praise of Senator Kernan. Republican and Democratic journals vie with each other in praising his ability and integrity, and not a single journal of any prominence has not a word to say in his disparagement.—N. Y. Herald.

This well established Company was organized in 1869. It has issued about 5000 policies, and has paid in death claims more than \$300,000. Its RESERVE secured for policy-holders, last July amounted to \$400,000; leaving a surplus of \$212,000.

Public attention is called to the fact that for every \$100 of liabilities, it has \$142 of assets. This unparallelled success should commend it to the people of this State.

Hesides, it has deposited \$150,000 for the exclusive benefit of policy-holders; and it now proposes to establish a local Board, and make loans on real estate security.

It takes insurance on all the approved plans, with but few if any restrictions.

The Symptoms of Liver Complaint are uneasiness and pain in the side. Some times the pain is in the shoulder and is mistaken for rheumatism. The stomach is affected with loss of appetite and sickness, bowels in general costive, sometimes alternating with lax. The head is troubled with pain and duil, heavy sensetion, considerable loss of memory, accompanied with aintul sensation f having left undone some plaining of weakness, debility, and low spirits. Sometimes many of the above symptoms attend the isease, and at other times very few of them; but the ver is generally the organ most involved.

Is warranted not to contain a single par-ticle of Mercury, or any injurious mineral su stance, but is

PURELY VEGETABLE, containing those Southern Eoots and Herbs, which an all-wise Providence has placed in countries where Liver Diseases most prevail. It will cure all Diseases caused by Derangement of the Liver and Bowels. SIMMONS' LIVER REGULATOR, OR MEDICINE

X ANTHINE! WHAT IS IT? NOT A DYE! A RESTORATIVE The Best Hair Dressing Ever Known.

READ! READ! READ

From Rev. Dr. Baird.

Secretary Board of Publication The Xanthine is the only hair dressing bave ever used which removed the dand ruff from the sc p and made my hair soft and phiable. It has also restored my hair to its original color, and by occasionally using it as a dressing I have no doubt will preserve the color. E. T. BAIRD. Richmond, Va., July 27, 1874.

CHARIOTTESVILLE. VA., Jone 12, 1874.

Dear Sir :- I have used the Xanthine for one year, and find it answers the purpose it is prepared for. I had used other orelar flows for the same purpose, viz: it extends no the hair to the natural color; but was compeled to about in them, because they as ected my system, gave me theorea in and neurable. Xanthine, however, has not bad this effect; on the centrary, has been beneficial in this respect. Hoping that yeu may be successful it is sair.
